SEX - Sex of respondent

	National Language	English Translation
Question no. and text	DS_P1. Sexo	DS_P1. Sex.
Codes/ Categories	1. Hombre	1. Male
	2. Mujer	2. Female
Interviewer Instruction		
Translation Note		
Note	This is a question filled directly by the interviewer, i.e., it is not asked to respondents	

Construction/Recoding:

Country Variable Codes (in translation)	➔ SEX
1. Male	1. Male
2. Female	2. Female
- not used -	9. No answer, refused

BIRTH – Year of birth

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR 'year of interview' minus AGE 'age of respondent'.

	National Language	**English Translation**
Question no. and text	DS_P2A_ANO. ¿Cuál es su fecha de nacimiento?	DS_P2A_ANO. What is your date of birth?
Codes/ Categories	1920	1920 (lowest)
	1997	1997 (highest)
Interviewer Instruction		
Translation Note		
Note	The answer to this question is the complete date of birth, i.e. day/month/year. We provide here only year of birth.	

Construction/Recoding: (list lowest, highest, and 'missing' codes only, replace terms in [square brackets] with real numbers)

ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file.* Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

0. NAP, no substitution in this survey	0. NAP, no substitution in this survey
	1. Case from original sample
	2. Case substituted

Optional: **Recoding Syntax**

WEIGHT – Weighting factor

Please report on whether you calculate any weighting variables. If you adjust for non-response bias, please enter the variable(s) on which the sample's distribution(s) is (are) adjusted to the population distribution(s). Please, also report if you apply any kind of rescaling.

Design weight to adjust for unequal selection probabilities	No	[x]
	Yes	[ ]
Weight to adjust for non-response bias	No	[ ]
	Yes	[x] → age, sex, and urban/rural
Are the final weights rescaled to net sample size (thus weighted sample size=unweighted sample size)?	No	[ ] → please specify target population represented by sum of all case weights
	Yes	[x]
Note		

Construction/Recoding:
